## Nemo tilting Shower-toilet chair

The Lopital Nemo is a mobile tilting shower-toilet chair, which has been developed to give both user and carer maximum security and support during the showering and personal care process. In combination with a bedpan, bucket or toilet, the Nemo can also be used as a toilet chair.

The Nemo consists of a frame and a chair. The chair has the same comfort as a normal chair and offers the same correct support. It can be infinitely tilted to 30 degrees from the frame by means of a gas spring. This means the Nemo can be used for multifunctional purposes.

The Nemo is supplied standard with a head / neck support which can be adjusted in both height and depth. The chair has straight, independently foldable arm rests and the ergonomically shaped foot supports are foldable and removable.

**Option:** Product no. 6960 8026 Comfort leg supports.

Suitable for people with a mild to severe disability

Easy to operate by means of the control handle.

Gas spring for the infinite adjustment of the shower-toilet chair.

**Option:** Product no. 6950 1104
