

C430001 Hydraulic Shower Trolley

Height adjustable shower trolley operated with hydraulic pump, providing a convenient and secure experience for the user.

The variable height from 52 to 88 cm enables the caregiver to work in an ideal position, avoiding risks of lumbar pain.

COMFORTABLE CARE

The use of a shower trolley provides numerous advantages for people who are bedridden or recovering from an injury or illness.

Bathing and personal hygiene is important when it comes to enhancing comfort, maintaining healthy skin, and managing odor effectively.

ERGONOMIC & SAFE DESIGN

- By placing the shower trolley close to the bed, patient transfer can be performed by one caregiver alone.
- Slightly sloping base board for good water evacuation.
- Hydraulic variable height adjustment that can be operated by a side pedal.
- Head and foot push bars.
- Pluggable drain outlet.
- Thermoformed clothes basket, at the head of the trolley.
